

NORLEX

POOL & SPA

Instructions of use

Version 1.1, September 2018

Product name: Desinfect

Use: Disinfection.

Description

Liquid product for disinfection and algae control. Can be used as supplement to chlorine or bromine disinfectants. Non-foaming algaecide for whirlpools and swimming pools. Use biocides safely. Always read the label and product information before use.

Instructions

For first treatment, add 50 ml Desinfect to 10 m³ of pool water.
Subsequently add 30 ml Desinfect to 10 m³ of water every week for indoor pools and 50 ml for 10 m³ of water for outdoor pools.

In case of visible algae / greenish water:

First carry out a shock treatment with chlorine. After that, dose 250 ml of the product per 10 m³ of water. After treatment the water should circulate for 1 hour, then the pump should be stopped for 2 hours.

Never overdose!

Before using the product, you should read the instructions and safety data sheet.
