

NORLEX

POOL & SPA

Instructions of use

Version 1.1, September 2018

Product name: Dicera Polish

Use: Grooming.

Description

Dicera Polish is a care agent for surface protection. Dicera Polish is a wax sealer for all surfaces. The product penetrates in depth and leaves a protective film on the surface, preventing rust and moisture damage.

Instructions

Suitable for surface treatment of spa baths in sanitary acrylic such as Beauty Polish, Stainless Steel, Aluminum, Cast Iron, Uncoated Wood, Granite, Marble, Slate, Brick, Terazzo, Linoleum, Concrete, Tiles, etc. Dicera Polish is food approved and can be used on surfaces that come into contact with food. Can be used outdoors and indoors.

Operating Instructions: Use undiluted on completely dry and clean surfaces. Apply with a dry lint-free cloth in a thin layer. Leave to dry for 2-4 hours until the surface is silk mat, then polish and wipe the surface. Non-absorbent surfaces are polished immediately.

Shelf life: Store frost free and below 30 °C. Avoid direct sunlight.

Before using the product, you should read the instructions and safety data sheet.
