

## Instructions of use

Version 1.1, September 2018

## Product name: Spa Tabs 5

Use: Disinfection.

### Description

Fast dissolving 5 g effervescent chlorine tablets to ensure water hygiene in indoor and outdoor spas, hot tubs and whirlpools with a water content of more than 1000 liters (for small bath use "Spa Tabs 1"). For both soft and hard water.

### Instructions of use

Before bathing:

Add 1 pcs of "**Spa Tabs 5**" tablet per person who will be using the bath. Add the tablet directly into the water with water jets on. Let the pump run for approximately 1 minute to dissolve the tablet(s) before bathing.

After bathing:

As an additional safeguard against bacterial growth, add additional tablets after use of the spa as follows: With water and air jets on, add 1 pcs of "**Spa Tabs 5**" tablet per person who has been using the bath. After circulation of approximately 1 minute, turn off the pump.

In spas in rental houses/luxury holiday villas and hotels, complete disinfection of the hidden piping should be performed every week in a 4-week program with the products Spa Fluid 2 and Spa Pipe Clean 2:

- Week 1 – 3: Desinfection with "Spa Fluid 2" (between each tenant change).
- Week 4: Desinfection and degreasing/biofilm removal with "Spa Pipe Clean 2".

The daily hygiene is ensured by the users themselves, using the "Spa Tabs 1" or "Spa Tabs 5" tablets.

Before using this product, please read the instructions and safety data sheet.
