

## Instructions of use

Version 1.1, September 2018

## Product name: Super Clear

Use: Flocculation.

### Description

Liquid product that coagulates suspended particles that are too small to be caught by the filter. The formed flocks are large enough for the filter to catch them or they will settle on the bottom of the swimming pool.

### Instructions

The product can be diluted in a bucket of water and poured evenly over the water surface, to maximize the rapid distribution in the pool. The circulation pump must be turned on during the application. After 5 minutes, stop the pump for 15 minutes. Then the pump must be restarted.

### Dosage

Once or twice a week, 50 ml to 10 m<sup>3</sup> of water. If the water is very unclear up to a maximum of 100 ml / 10 m<sup>3</sup> of water.

Before using the product, you should read the instructions and safety data sheet.
