

NORLEX

POOL & SPA

Instructions of use

Version 1.1, September 2018

Product name: No Foam

Use: Removal of foam in spa.

Description

Liquid foam suppressant to fight foam in spa bath.

Instructions of use

Use as required if foam occurs in the spa.

The cap is opened, and the opening is pointed down towards the water surface.

A short pressure will dose No Foam directly into the water.

Dosing will depend on the amount of foam. If the foam does not disappear with the first dosing, add more No Foam with another short pressure on the No Foam bottle.

The product is not harmful when used as indicated.

Before using the product, read the operating instructions and safety data sheet.
