

NORLEX

POOL & SPA

Instructions of use

Version 1.1, September 2018

Product name: No Stain 2

Use: Iron control.

Description

No Stain 2 helps prevent stains from iron residues in the water, by "locking" the iron in a complex.

Instructions

For preventive maintenance of 10 m³ of water:

- water hardness 350-500 ppm (25-35 English degrees): 100 ml every 3 months.
- water hardness 500-750 ppm (35-53 English degrees): 200 ml every 2 months.
- water hardness > 750 ppm (53 English degrees): 200 ml each month.

To remove stains or scale deposits dose 200 ml as close as possible to the affected area and brush vigorously the scaled areas.

Before using the product, you should read the instructions and safety data sheet.
