

## Instructions of use

Version 1.1, September 2018

## Product name: Spa Fluid 2

### Use: Disinfection of hidden pipe system.

### Description

Liquid disinfectant for complete disinfection of hidden pipes and pump systems in spas in rental houses/luxury holiday villas, hotels and private homes.

Total disinfection of the hidden piping with Spa Fluid 2 in commercial installations must be performed by qualified service personnel every week (between each tenant change).

### Instructions of use

1. Fill the tub with clean water to just above nozzle outlets and add 100 ml Spa Fluid 2 concentrate per 150 l water. Do not bathe in water where Spa Fluid 2 has been added.
2. Make sure the room is well ventilated during the cleaning.
3. Start the water circulation and let the pump run for at least 5 minutes.
4. Before the water circulation is stopped, start the air injection briefly for about 10 sec.
5. Empty and wipe clean the tub. It is then ready for use.

In spas in rental houses/luxury holiday villas and hotels, complete disinfection of the hidden piping should be performed every week in a 4-week program with the products Spa Fluid 2 and Spa Pipe Clean 2:

- Week 1 – 3: Disinfection with "Spa Fluid 2" (between each tenant change).
- Week 4: Disinfection and degreasing/biofilm removal with "Spa Pipe Clean 2".

The daily hygiene is ensured by the users themselves, using the "Spa Tabs 1" or "Spa Tabs 5" tablets.

After cleaning with water, the packaging can be disposed of with household waste.

Before using this product, please read the instructions and safety data sheet.
