

Instructions of use

Version 1.1, September 2018

Product name: Spa Pipe Clean 2

Use: Removal of biofilm and disinfection.

Description

Liquid detergent for cleaning and disinfection of the hidden piping in spa baths in rental homes/luxury villas, private homes and hotels.

"Spa Pipe Clean 2" is a powerful 2-in-1 product that both kills bacteria and cleans the pipe system.

Instructions of use and dosage

1. Fill the tub with water to approximately 5 to 10 cm above the nozzles. Used bathing water can be used. Check that the air injection is turned off.
2. Add 100 ml "**Spa Pipe Clean 2**" to 150 liters of water.
3. Start the water circulation and let the pump run for approximately 20 minutes.
4. Drain and rinse the tub thoroughly with clean water.

Do not bathe in water where "**Spa Clean Pipe 2**" has been added. Effective ventilation of the room during cleaning is recommended.

In spas in rental houses/luxury holiday villas and hotels, complete disinfection of the hidden piping should be performed every week in a 4-week program with the products Spa Fluid 2 and Spa Pipe Clean 2:

- Week 1 – 3: Desinfection with "Spa Fluid 2" (between each tenant change).
- Week 4: Desinfection and degreasing/biofilm removal with "Spa Pipe Clean 2".
- The daily hygiene is ensured by the users themselves, using the "Spa Tabs 1" or "Spa Tabs 5" tablets.

Private baths should be cleaned 3-4 times a year.

Before using this product, please read the instructions and safety data sheet.
