

## Instructions of use

Version 1.1, September 2018

## Product name: Spa Tabs 1

Use: Disinfection.

### Description

Fast dissolving 1 g effervescent chlorine tablets. Used to ensure water hygiene in indoor spas, hot tubs and whirlpools for 1-3 persons with a water content of 100-200 l, where the water is emptied out after bathing. For both soft and hard water.

### Instructions of use

During filling:

Add 1 pcs of "Spa Tabs 1" per person who will be using the bath. Add the tablet directly into the water with water jets on. Let the pump run for approximately 1 minute after filling is complete before bathing.

After bathing:

To help keep the tub and pipesystem free from bacterial growth, add additional tablets after use of the spa as follows: With the water and air jets running add 1 pcs of "Spa Tabs 1" per person who has been using the bath. After circulation of approximately 1 minute, drain the tub.

In spas in rental houses/luxury holiday villas and hotels, complete disinfection of the hidden piping should be performed every week in a 4-week program with the products Spa Fluid 2 and Spa Pipe Clean 2:

- Week 1 – 3: Desinfection with "Spa Fluid 2" (between each tenant change).
- Week 4: Desinfection and degreasing/biofilm removal with "Spa Pipe Clean 2".

The daily hygiene is ensured by the users themselves, using the "Spa Tabs 1" or "Spa Tabs 5" tablets.

Before using this product, please read the instructions and safety data sheet.
